

BARZ: A Riley Original

before I start this,
I'd like to say a prayer for protection,
that never we misguided - or led in misdirection,
and even when we lied too

see losses as a blessing
it's harder truly expressing your mind when you obsessing.

give me reflrction

teach me patience - til I get it,
let me have more knowledge and less ánger--agressión)

I need balance- help me weigh it.

Can you please educate me?
on how to see love through all the hatred,
an never let me die for everyday I wake in
(and) even when the strong stárt falling-make us unshaken

For every bad thought we had ÷ is now vacant
Gift me with your courage and extermination of my anxiousness

Cast away my worries-
build my faithfulness
- Angels please guide me away from where SATAN is.
Pray for a little bit of change,
so I wont pay for this.

(cuz) GOD took away my pain in exchange for some stableness
giving me a gift and also taking anguishing.

so I find balance in the way it is-
downs only make the ups- greater thans.

He gonna make my whole family rich w/ health, pure joy and
true graciousness-

May all this heavy pain turn to weightlessness,
more thanks and more gratefulness,
less sorrows as my prayers persist

I bes to please forgiven- whenever I ain't consistant,

And if Im ever needed,
please make me your assistant.

Blow'n kisses to the sky til I get there-
keep your presence in my life'
Amen

-know that everythings alright (ay-yea) thats right
keep faith throughout every single one of ya dayz!
